Email: taulantvokshi2@gmail.com

Portfolio: <https://taulantvokshi.com>

Skills

- Proficient: Javascript, Python, Node.js, AWS, PostgreSQL, Sequelize, D3, React, Redux, HTML, CSS, Sass, Git, OAuth
- Knowledgeable: React Native, MongoDB, Socket.io, Django

Projects

April 2019

Light-Text - Web-Application - <https://light-text.herokuapp.com>

- A message-based web application that allows us to send and receive Bitcoin payments through, lightning network.
- Lightning network protocol enables fast transactions between participating nodes.
- Technologies used: Javascript, React, Redux, Node.js, PostgreSQL, Heroku, Sequelize, Semantic UI, OAuth, Twilio

November 2019

HappyResident. - Web-Application - <https://happy-resident.taulantvokshi.com>

- Happyresident is a building management system that gives both the building owners and the tenants an easy way to manage, organize, and efficiently respond to their requests.
- With this project, I wanted to show the full capabilities of production level architecture and deployment.
- The virtual machine runs on Digital Ocean, I used a reverse proxy (NGINX) to handle load balancing, https traffic using lets-encrypt certificates, and also SSL termination that will enable superfast communication between servers.
- The system is immune to Failovers if one node is down, users are served by other nodes.
- Technologies used: Javascript, Nginx, Bash, NodeJs, PostgreSQL, Sequelize, Stripe, AWS, React, Redux, Sass

November 2019

Whiteboard. - Web-Application - <https://whiteboard-coding.herokuapp.com>

- Whiteboard is a social platform web application that helps new developers by giving them the ability to practice and stimulate coding interviews
- A developer can find, search, or create new events of their choice and join groups of people that share the same interest.
- Technologies used: Javascript, NodeJs, PostgreSQL, Sequelize, Stripe, AWS, React, Redux, Sass

Education

Fullstack Academy - *Full-time software engineer immersive*

- Immersive 3-month software development Bootcamp
- Number 1 rank coding Bootcamp in the Country emphasizing pair programming, test-driven development.

AWS - Certified Developer Associate. Validation Number: 0SC6B3KCM111QSWJ

- Deployment for large distributed systems.
- CI/CD development.
- Highly secure and scalable applications

Faculty of Business Administration - Fshab

- An understanding of organizational behavior and structure.
- Financial reporting, statistics, ethics, marketing, operations, management.
